 caesarstone®

# Surfaces for you. For a *lifetime*.

Innovation is in our DNA. Since 1987, we've combined creativity and expertise to design trends and shape high-quality, durable, and unique surfaces.

With a wide range of materials such as ICON, Quartz and Porcelain, we offer over 100 stunning colours with timeless quality, backed by a long-term warranty for added peace of mind.

From indoor to outdoor, our surfaces evoke powerful designs in a variety of palettes, textures and patterns to suit different preferences and styles, empowering people to express their true selves in their homes.

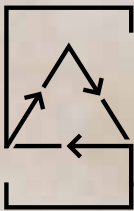

# We care about the planet. *Just like you.*

For us, sustainability is more than a goal. It's a principle.

Aligned with the essence of our time, nature, and humanity, we hold a steadfast commitment to our planet's well-being. We invest in sustainable and safety-oriented initiatives across our end-to-end product lifecycle. From the selection of materials to manufacturing and end use, we take responsibility for promoting practices that lead to change in our markets towards a greener future. It's a core commitment that extends throughout our entire network of valued business partners.

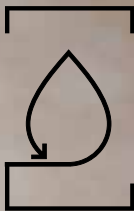

~80% **recycled materials** in our ICON surfaces

100% **renewable electricity** by 2026

20% decrease in **carbon footprint** by 2025

100% **recycled water**, zero discharge

Zero **landfill waste** by 2030

# Caesarstone Porcelain. *Redefine what's possible.*

537 Glacetta

## Extremely hard, heat resistant, modern designs.

Whether you are designing for your own home or a commercial project, bringing your vision to life takes ambition, imagination and innovation. Transform your boldest creative dreams into reality with Caesarstone's cutting-edge porcelain surface and redefine what's possible both indoors and out. Caesarstone Porcelain features a diverse range of colours, textures, and patterns, from rich marble styles to sleek modern designs, bringing extraordinary beauty to any space. Crafted with the same pioneering passion for exceptional design and quality that has defined Caesarstone since 1987, Caesarstone Porcelain is innovation you can trust.

537 Glacetta

# Surfaces for indoors and outdoors

All our porcelain surfaces are crafted for superior durability, beauty, and extreme heat resistance. Designed and tested to withstand strong sun rays and frosty weather, these surfaces create the ultimate multifunctional space for cooking, dining, and entertaining with family and friends.

High-performance surfaces that  
seamlessly merge indoor and outdoor.

583  
Crestone

A creamy taupe base with swirling translucent veins in beige and white, creating a delicate feathery effect of natural elegance.

584  
**Opal Taj**

An earthy neutral base with taupe and beige veining, accented by feathery cream swirls that create fluidity and movement.

535  
**Goldesse**

A soft white base enhanced by bold golden veins, faint grey tinges, and fine sharp markings, creating a warm and captivating surface.

# Caesarstone's *Sensorial Tech™*

Advanced technology allows us to take textured, sense-stimulating surfaces to new heights. From interpretations that echo natural stone topography to expressive tactility that recreates the feel of oxidized metal, we are celebrating life's beautiful imperfections. Designed not only to inspire the senses but also to simplify everyday living, our textured surfaces are as effortless to clean and maintain as they are beautiful to touch.

Sculpted

Tantalizingly unique, the Sculpted effect complements surface veining with shallow grooves that merge to form textures that are surprisingly tender, echoing the subtle influences on natural stone.

Luster

Evoking the unrefined wonder of natural stones, the Luster effect enriches surfaces with heightened tactility. Elevated veining creates an uneven texture that gratifies the senses.

Metal

Honed yet leaning towards the dramatic, the burnished qualities of the Metal Effect gently reflect light and movement, injecting interior spaces with a vibrant industrial aesthetic.

Wood

A straight wood grain look creates a rich texture that offers immediate warmth, regardless of colour or hue. With its even and unified calmness, Wood is trend-conscious, eye-pleasing alternative that stimulates the touch.

Leather

Leather empowers surfaces with a tactile depth, adding leathered sensuality that is smooth to the touch and resembles the soft-spoken coarseness of suede.

## Classic edge profiles

Every Caesarstone slab comes with a standard engineering cut, ready for experienced fabricators to manufacture the surface to your specifications after cutting the perimeter. The edge profile of your surface can be custom designed by any fabricator in a variety of thicknesses to inspire your design. Choosing the right edge profile for your specific design style and aesthetic adds the most important finishing touches to your surface and optimizes your design.

## Slabs Dimensions & Weights

Caesarstone Porcelain surfaces come in one large-format size for a seamless kitchen experience. Availability of colours and thicknesses may vary by market. Please consult your local suppliers for more details.

Thickness	Standard Slab Size	Weight
6 mm	3200 x 1600 mm	72 kg
12 mm	3200 x 1600 mm	142-145 kg
20 mm	3200 x 1600 mm	245 kg

## Long-lasting finishes

To bring out the best in your design, we offer a variety of finishes which protect and guarantee their long-lasting durability and beauty without the need for sealants or wax.

### Glossy

With its smooth, high-gloss finish, Glossy reflects light and illuminates a space.

### Honed

Honed offers a matte, low gloss finish that is smooth to the touch and gentle on the eye.

### Silk

Silk has a smooth feel and a gentle shine that adds softness and warmth to the finish.

### Stone

Tenderly tactile with a pleasant radiance, Stone has the ambiance of a weathered rock that is comforting and genuinely authentic.

### Ultra-Rough

A highly tactile finish, Ultra Rough is inspired by the granular touch of crude rocks.

## In-Sync technology

In-Sync Technology creates seamless design continuity across body, surface, and edge, by blending pure raw minerals of varying grain sizes into each porcelain slab.

caesarstone® **ICON**

We're writing  
a new story.  
And it's *iconic*.

Introducing Caesarstone ICON™ - advanced fusion surfaces that meet the growing demand for responsible innovation while elevating sustainable solutions to new heights.

Our revolutionary crystalline silica-free\* surfaces combine a unique patent-pending blend of ~80% recycled materials and innovative materials, offering stunning design possibilities that enhance transparency and depth while responsibly reflecting your personal style.

\* May contain traces of up to 1% crystalline silica.

NEW  
DESIGN

# Your favorites, just better.

In 2025, we have transitioned almost a dozen customer favorites to advanced fusion surface material.

This evolution represents our commitment to innovation, safety, and sustainability, giving you access to one of the industry's largest and most advanced crystalline silica free surface assortments.

# Our Quartz Surfaces

Innovative, sustainable, premium.

Our quartz surfaces offer exceptional versatility, delivering timeless beauty through an array of patterns, finishes, and colours that enrich your life.

Made from natural minerals, resins and pigments expertly blended to create the most durable surfaces on the market, and our innovative approach to design has contributed to making our quartz surfaces one of the most preferred materials for countertops by architects, designers, fabricators, project managers, and homeowners.

4033  
Rugged Concrete

Dramatic gradients of robust greys, flashed with white-haze patinas and accentuated with industrial-inspired imperfections.

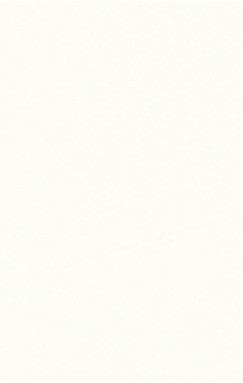

6046  
Moorland Fog

A densely rich, creamy, light-colored canvas, flushed with a touch of taupe and swirly veins in foggy browns and greys.

Every Caesarstone slab is cut to standard engineering specifications, ready for experienced fabricators to tailor the surface to your specific requirements. To improve your project, the fabricator can personalize your surface with a custom edge profile, offering various shapes and thickness options. Selecting the ideal edge profile for your project enhances the overall appeal of your surface and adds essential finishing details to your design.

## Long-Lasting Finishes

To bring out the best in your design, we offer a variety of finishes which protect and guarantee their long-lasting durability and beauty without the need for sealants or wax.

### Polished

With its high-gloss smoothness, it enhances the surface’s characteristics. It attracts light, illuminating the space with a natural glow that makes it appear larger and luxurious.

### Honed

Smooth to the touch and gentle on the eye, this finish adds a delicate sophistication to the surface. Soft, organic, matte, low gloss luminosity.

### Natural

Like a touch on a small smooth stone, this finish has a slightly textured satin sheen. It brings out the colour and pattern of the surface, especially in darker tones.

### Concrete

With low light reflection and a slightly textured appearance, its light grainy feel evokes the sensation of an organic material that is powerfully strong.

### Rough

With a complex and robust look and feel, it intensifies the depth of the colours. An advanced technology that achieves the effect of coarse industrial materials, but remains smooth for easy cleaning.

## Slabs Dimensions & Weights

Caesarstone ICON & Quartz surfaces come in two sizes and in a variety of thicknesses. Availability of colours and thicknesses may vary by market. Please consult your local suppliers for more details.

### Standard

Standard size – 144 cm x 305 cm  
Thickness – 1.3 / 2 / 3 cm for most colours

Thickness	Standard Slab Weight
1.3 cm	127-143 kg
2 cm	189-210 kg
3 cm	290-306 kg

### Jumbo

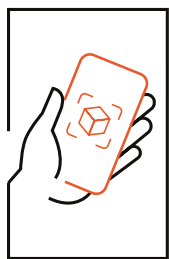

Jumbo size – 164 cm x 330 cm\*  
Thickness – 1.3 / 2 / 3 cm for most colours

Thickness	Jumbo Slab Weight
1.3 cm	158-179 kg
2 cm	236-261 kg
3 cm	362-382 kg

\* Size might variate slightly between production facilities.
